

## **BASE COMMERCE HIRES CSO AND OPENS JACKSONVILLE OFFICE TO SUPPORT RAPID GROWTH STRATEGY**

TEMPE, AZ (October 03, 2018) - Base Commerce, LLC ([www.basecommerce.com](http://www.basecommerce.com)), a technology-driven payment processing company specializing in ACH and bankcard payment solutions, has announced the hiring of industry veteran Timothy Hills as its Chief Sales Officer. Hills' initial focus will be on enhancing the company's sales strategy and expanding its sales team to capitalize on new opportunities brought about by rapid growth and increased awareness of the company's offerings. To support this new growth, Base Commerce has also opened an office in Jacksonville, FL, where Hills and his team will be based. The new location gives the Tempe, AZ company, which serves clients nationwide, a broader physical footprint.

"Our year-over-year growth has been remarkable since the company's founding a decade ago," said David Schoenecker, Chief Marketing Officer at Base Commerce. "However, much of that growth has been achieved by leveraging our strategic relationships in the industry. By hiring an experienced and successful sales leader like Tim and having him take our sales operation to the next level, we can connect more effectively with ISOs, ISVs, and merchants who can benefit from our best-in-class technology and services."

Base Commerce has experienced consistent double-digit growth in recent years and is implementing a number of product and service enhancements designed to ensure the trend continues.

"I'm excited about the opportunity to bring my skills and expertise to a recognized payments leader," said Hills. "The future looks bright as we align with marketing and execute a sales strategy that has Base Commerce firing on all cylinders. Our potential for growth in the months and years ahead is virtually limitless."

"Tim has played a critical role in helping many notable companies in the payments space grow," added Schoenecker, "We have no doubt his impact here will be immediate and significant."
